Schemas:

- User
- Invoices
- Items
- Customers

```javascript
const customerSchema = new mongoose.Schema({
    FirstName: {
        type: String,
        required: true
    },
    LastName: {
        type: String,
        required: true
    },
    Company: {
        type: String,
        required: true
    },
    email: {
        type: String,
        required: true,
        unique: true
    },
    workPhone: {
        type: String,
    },
    mobilePhone: {
        type: String,
    },
    bankName: {
        type: String,
        required: true
    },
    account: {
        type: String,
        required: true
    }

})
```

```javascript
const invoiceSchema = new mongoose.Schema({
    customer: {
        type: String,
        required: true
    },
    invoice: {
        type: String,
        required: true
    },
    invoiceDate: {
        type: String,
        required: true
    },
    invoiceDueDate: {
        type: String,
        required: true
    },
    subject: {
        type: String,
        required: true
    },
    item: {
        type: String,
        required: true
    },
    quantity: {
        type: String,
        required: true
    },
    rate: {
        type: String,
        required: true
    },
    discount: {
        type: String,
        required: true
    },
    amount: {
        type: String,
        required: true
    },
})
```

```javascript
const itemSchema = new mongoose.Schema({
```

```
    name: {
        type: String,
        required: true
    },
